### Photo & Social Media Policy

Each school year, EGCCNS Preschool creates a new private, hidden, Facebook group for currently enrolled students and their families. You may choose to participate in this group, and may select whether or not you would like your child's photos included in group posts. The group is not searchable on Facebook, and will not be visible to non-members (including previous years' students and their families). We also send out weekly newsletters to families currently enrolled in our school; these have photos from during the week. You may select whether or not you would like your children included in these photos.

Our school maintains an official Facebook page and a website, visible to the public, for the purposes of letting people know about our school and upcoming events. You may choose whether to have your child's photos included in our school's marketing (which never includes names), which applies to our public Facebook page, our school's website, school flyers, etc.

Finally, we may need to send out occasional group texts during the year in case of school closures or delays, emergencies, etc. Group texts make all cell numbers visible to all parties. If you would like to opt in to the group text, please indicate below (if you do not opt in, you will be contacted individually with the same information).

Important to note for the private family Facebook group:

1. This Facebook group is only for the families currently enrolled. Do not share this group with anyone else.
2. Photos on this site are private. Please do not share photos from this group anywhere else unless your child is the only one in them.
3. To be invited to join the Facebook group, you will need to send/accept a friend request from the EGCCNS Preschool Teacher's profile on Facebook (we do not know another way to accomplish this). After we are connected on Facebook, we can add you to the private group.
